At Methodist Church.

Because of the sickness of Dr. M. S. Kaufman, at the Methodist church Sunday morning Rev. Dr. Lewellyn Pratt, pastor emeritus of Broadway Congregational church, was the preacher. The Christmas music was given and thoroughly enjoyed, the choir—Mrs. Grace Aldrich Crowell, Mrs. Helena M. Lord, Louis Brown and W. A. Lund—being heard in beautifully rendered anthems, the programme having been arranged by Miss Woodward, organist.

Rev. J. F. Cobb Preaches on a Look Forward-Dr. Kaufman's Message for New Year

In Bucskingham Memorial Sunday, January 2, 1910, Rev. Joseph F. Cobb preached "A Look Forward." and said in part, speaking from the text II. John 8:

For about 30 years this society has been laboring to establish and exemplify the truth as it is in Jesus. A good work has been wrought, there has been fidelity on the part of the believers in Universal salvation, there has been honesty and sincerity of purpose that has kept the believers loyal

has been honesty and sincerity of purpose that has kept the believers loyal and firm.

For 89 years there was a church building that stood on the corner across the street as the religious home or the house of worship for the believers in and professors of this particular form of interpretation of Scripture. That church, which is the body of believers, is alive today as much as ever.

Now we are beginning on a new year and I ask you as did St. John of a certain honorable woman with her

as ever.

Now we are beginning on a new year and I ask you as did St. John of a certain honorable woman with her children to persevere in Christian love and belief lest they lose the reward of their former profession, "look to yourselves that ye lose not those things which ye have gained but that ye receive a full reward."

I ask that we with Paul may be able to say, "We have fought a good fight, we have kept the faith," and let us add we are going to do our full duty and find pleasure in our service, for, unlike Paul, we have not yet finished

unlike Paul, we have not yet finished Can you not see before you a new, beautiful church building, with all the

It has been and still is said that we do not bethat we do believe in God, Christ, man, the Bible, and salvation. It has been and still is said that we do not believe in punishment, notwithstanding that it has been constantly proclaimed that we believe in the certainty of just retribution for sin.

For years this church has been advocating the Universal Fatherhood of God.

Have Evolved Some Strange and Wonderful Theories Concerning

Stomach Treatment. A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Within the last 20 years there ha sprung into existence theories by the score relative to the kinds of food that human beings should eat, and should avoid. With the tremendous increas in nervous and stomach diseases whic are caused by the strenuous life of this neurotic, neurasthenic age in which we live, we are constantly having our attention called to some food faddist's "new idea" on the subject of alimenta-

Most prominent among these theorists is the vegetarian who insists that meat was never intended for the human stomach, despite the fact that his ancestors for 6,000 years or more, used it as their principal article of diet; and the old patriarchs of Biblical History who lived to prodigious old ages, were meat eaters. All of the great nations of history have been users of meat, and all of the most powerful and advanced countries of today employ it extensively in their dietaries, and their superior development and high degree of civilization ment and high degree of civilization are in strong and striking contrast to the decadent and degenerate nations of Asia and the tropics, whose inhabi-tants are vegetarians.

Another fallacy which has lately be-come a fad, is the so-called "low-pro-

come a rad, is the so-called "low-pro-teld" diet. Now, the foods which are rich in proteids are the ones which build up nerve, brain, muscle and blood, so that any great reduction in the amount of proteid used simply means semi-starvation for the most important centers of the system-the ones on centers of the system—the ones which we depend the most to enable to successfully fight the battles of I Those nations whose people use foods containing but little proteid are never of large frame or well-built. The Japanese, who have always been small of stature, have, since adopting a more liberal protaid diet, shown a remark-able increase in size, vigor and gen-eral development; and it is only since Japan became a meat-eating nation that it has developed into a worldthat it has developed into a world-

Still another theory lately advanced Still another theory lately advanced is that sugar, pepper and salt are gastric irritants and irritate the mucous membrane of the stomach, although it is known that sugar possesses a high caloric value, while pepper and salt assist digestion rather than interfere with it as is claimed. The no-breakfast plan, the two-meal per day, and even the one meal daily has been advocated, while some advise a two or three weeks' fast, during which all food is withheld from the stomach "to give it a rest," completely ignoring the fact that the system's tissues are being constantly torn down sues are being constantly torn down and cast off, and new material to reulid them must be supplied from the

food.

It is utter nonsense to concern one's self about all these absurd and illogical theories, as life is entirely too short, and there are other things requiring our attention. Eat what you want when you want it, and as much as the system needs to replenish its waste, and then take one or two of Stuart's Dyspepsia Tableis, and forget all about food fads and stomach troubles. They digest all kinds of food so thoroughly you won't know your have thoroughly you won't know you have a stomach.
